

Bryan Gay

President at ESE Partners

bryan@esepartners.com

Summary

Bryan Gay is President of ESE Partners, LLC which he co-founded in 2002. Mr. Gay has over 16 years of environmental consulting experience in the areas of soil and groundwater assessment and remediation. His experience includes conducting site investigations, response actions and risk based regulatory closures for a variety of industrial and commercial sites. Additionally, Mr. Gay has extensive experience in assisting clients with VCP and Brownfields site assessments in the State of Texas. While at Harding Lawson and Associates, Mr. Gay served as the consulting Program Manager for the City of Houston's Brownfields Program from 1999-2001. Furthermore, Mr. Gay's technical experience and capability has led him and his firm in the direction of providing environmental science and engineering services with an emphasis on Brownfields.

Mr. Gay has taken the experience gained from managing a municipal brownfields program from a technical consulting role, and applied it towards the use of the entrepreneurial market place. Since co-founding ESE, Mr. Gay has placed an emphasis on managing Brownfields projects and programs for stakeholders.

Mr. Gay also serves as a director on Cinco Ranch Southwest MUD 3, he is a member of the National Groundwater Association, National Association of Environmental Professionals, and East End Chamber of Commerce. Mr. Gay participates in numerous reclamation interest groups such as Buffalo Bayou Partnership, Ducks Unlimited, and the Coastal Conservation Association. Mr. Gay also represents his firm as a CCIM Partner.
